General Data Protection Regulations (GDPR) / Photo Consent

Dear Parent / Carer,

You may be aware that new regulations will soon come into force relating to the use of personal data. Like many organisations, we are currently checking that the data we hold is being handled securely and correctly in order to be GDPR compliant. Photos are included in this data check.

It has been the custom at Hazlehurst to take photos of school activities and share these on the school website and on Parent Hub, to give parents, and the community, an overview of the life of the school. The intended focus of the photograph is the *activity*, rather than the *participant*, and we take care to ensure that children's names do not appear alongside their photo, so that they cannot be identified. Photos that appear on the school website are usually replaced within 3 or 4 years. Parents and carers are free to ask for images to be removed at any time, but, up to now, it has been extremely rare for anyone to do so.

We would like to gain your consent in order to be able to continue to share photos in this way. If the majority of parents give consent, the current approach will be able to continue. If a significant number do not give consent, then we will of course change how we use digital images.

Yours sincerely,

M Golding
Headteacher
