Year 3 - Max
wrote a super
description of
chocolate
using
conjunctions
and
adjectives.

Lo To write a description about chocolate

Chocolate is smooth and it melts in your mouth quickly
quickly although it can be very hard and rocky. Since
you have never tried chocolate I have some
ideas for some chocolate. Milk chocolate, white chocolate
and alot more too. ~~Thought~~ ^{though} some people don't like
chocolate because they don't like the taste of it.
Because you are going to try chocolate, are you
sure you want some? Chocolate usually comes in squares
in a bar and it is in a wrapper. Sometimes, chocolate
is sour.

You can have mint chocolate that is not that sweet
to me but it might be for you. Some chocolates are
very sweet that makes your teeth go bad. & Chocolate
is very interesting interesting and cheery ill? so if you
are sad you can have a bar of chocolate. It is sweet
and sugary with bad things in it. You have to have
a bit of chocolate because you need a bit of
a bit of sugar in your body.

There is different flavours of chocolate so that
you don't have to eat the same chocolate. Chocolate
contains alot of bad stuff but some of it is
good for you. & Chocolate is great but if you
eat too much you may get fat. After chocolate,
alot of children go hiper after you can eat chocolate
in different ways you can eat it for breakfast,
after dinner, and after tea. Chocolate is mouth watering
and scrunchous with alot of ^{del} flavours.

Thursday 25th March

Dear Meredith and Steve,

I know why my parents abandoned me! ~~How dare I~~ I was ~~we~~ in a normal lesson with Miss Vander when I started to feel a tingling sensation in my fingers then my hands shot to the other side of me. Everything started to get knocked over and loads of children screamed and ran for the door I was left with by myself with my head in my hands. ~~Why didn't you~~ I realized I had powers. I walked round the ~~or similar~~ corridors and I saw Mrs Belle she had a distraught look on her face she was on the phone it sounded like she was talking to the police. I quickly made a run for the door. When I got outside

Mrs Belle was talking to the head police officer. ~~I~~ ^{Then} I saw my bike, and ran for the door. I saw two ladies running they ~~slowly~~ stopped at me ~~nicely~~! I got in our house and started packing my bag: T-shirt, ~~Jeans~~ ^{Coat} shoes hair brush! but then the police barged on the door. They came in and started to load their guns. As they moved around the house I threw things in the air and made them flinch. Later I ran off to the woods. I thought I had escaped until I saw flashing lights and knew I was in trouble.

Year 5-

Jack N worked out the ages on different planets using the lengths of a year.

He made some accurate calculations and found out some interesting ages.

Monday 27th March.

Lo: To describe the movement of the Earth and other planets, relative to the Sun in the solar system

Mercury	88 Earth days	I am 9 years and 9 months old.
Venus	225 Earth days	
Mars	687 Earth days	
Jupiter	12 Earth years	
Saturn	29 Earth years	
Uranus	84 Earth years	
Neptune	165 Earth years	

How old would I be on...

Mercury = ~~940~~ 35 or 3,555 days

If I was 23 on ~~Earth~~ ^{Mercury} I would be

Mercury = ~~940~~ 77 = 27 years old ✓

If on Earth I was 3 years exactly, how old would I be on Venus?
2095 days or 5 years 70 days ✓

If on Earth I was 7 years old, how old would I be on Mars? 35496 ✓
