

Reception have been learning about the UK this week. A group of children walked into Ramsbottom and bought ingredients to make a corned beef hash! They peeled potatoes, cut them up and made a fabulous meal! Their behaviour was impeccable making lots of elderly customers smile on the bus!

We made London buses and wrote about where the Queen might be when she is not at Buckingham Palace!

When the flag is not up at Buckingham Palace I think the Queen...
is shopping
Camping

Lucas M

When the flag is not up at Buckingham Palace I think the Queen...
I think that
the queen is
at shopping.

Sam

We have been doing some super tricky problem solving using division and missing numbers this week!

$$8 + \boxed{2} = 10$$
$$5 + \boxed{5} = 10$$
$$4 + \boxed{6} = 10$$

Tilly and Harry were amazing mathematicians!

Harry even solved this Year One division problem.

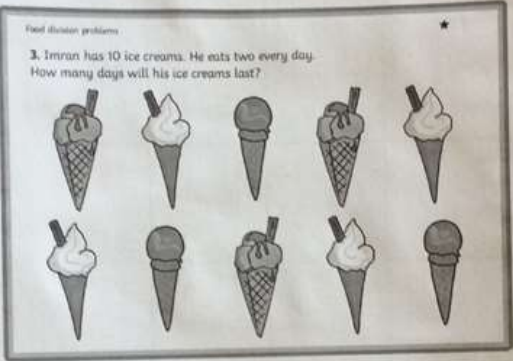

“Imran has 10 ice creams.

He eats two every day.

How many days will his ice creams last?”

Find division problems

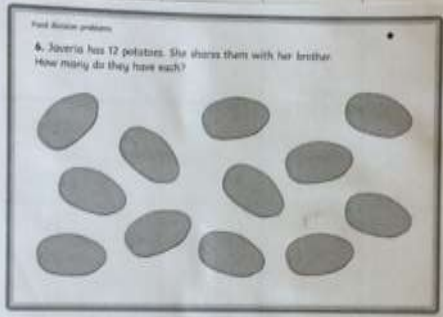

3. Imran has 10 ice creams. He eats two every day.
How many days will his ice creams last?

5 d ays

Find division problems

4. Javeria has 12 potatoes. She shares them with her brother.
How many do they have each?

Year 1 created wanted posters for a missing dragon! We thought carefully about adjectives, conjunctions and questions.

Danger!

By Jordan

Description:

Lightning dragon on the loose!
Have you seen his dragon? This lightning dragon is blue and has shiny lines on its wings but do not get too close unless you want to get zapped by an electric storm. The reward will be 2000000 \$! Sent by Jordan caleb snake.

Jordan's work

Year 1 - Asa's work

MISSING!

missing
dragon

By Asa.

Description:

Have you seen this karafy dragon? It is walking a white sheet and a golden karafy ball on its head but don't go too close or it will flick its hole at you. It will catch you for its tail and it breathes poisonous silver. You may find it in a karafy deep the reward you would get is 1 point million grand.

Year 1 - Keira's work

Danger!

By Keira

Description:

Have you seen this Forest Dragon? This Forest Dragon has light brown scales and its wings are as big as a shop. It breathes fire and it has leaves all over it. Its eyes are pink and blue. Its claws can grow up to 1 meter long. You may find it the ever green forest. If you find this Forest Dragon you will be given 20,000.

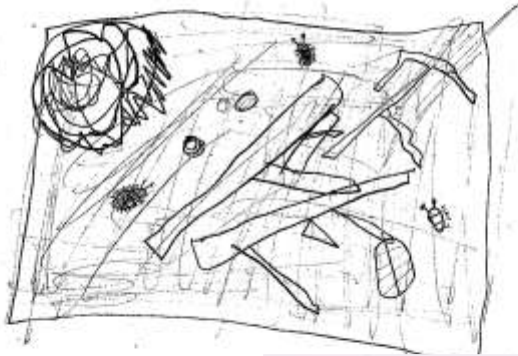

Danger don't go to meet this Forest Dragon it might give you half a fever.

Year 2

Olivia F. and Nina worked thoughtfully and carefully to make their Father's Day cards.

(We can't show them on here because it's a surprise!)

Year 2 Isabelle's group worked well as a team in their Science work to find out information and create their habitat to encourage insects to our potato patch.

Year 3 had a wonderful time making heathy sandwiches when Warburtons came to visit.

Year 3 - Bonnie

Eloise wrote a great recount in the form of a postcard.

Grace Good wrote a lovely recount of her favourite holiday.

Year 4

We did a lot of work on homophones this week and Nyesha concentrated well and did some really good work.

Monday 12th June

Lo: To use homophones:

1. The witch zoomed across the sky on her broomstick.

2. The tiger swished its tail from side to side.

3. "I want to go to the zoo!" cried James.

4. I will met again in World War 2 Song by Dame Vera Lynn.

5. Snow was very happy that she won the egg and spoon race.

6. Who knew that Chelsea would lose 2-1 to West Ham at the weekend.

7. You can hear the church bell ringing at church time.

8. "Can I have piece of cake please?" asked James.

9. The children were asked to put on their coats before playtime as it was very cold outside.

10. Callum asked John, "What are you going to wear to the school disco?"

11

Excellent

Year 5-

Luke took his time to produce a very smart card for a male role model

Year 5-

Reuben worked confidently to round decimals

14/06/17
10: Round decimals
Whole Number

1. $32 = 3$ ✓
2. $4.4 = 5$ ✓
3. $77.8 = 74$ ✓
4. $49.1 = 49$ ✓
5. $26.36 = 26.3$ ✓

1dp

1. $3.42 = 3.4$ ✓
2. $8.83 = 8.8$ ✓
3. $11.75 = 11.8$ ✓
4. $26.11 = 26.1$ ✓
5. $105.284 = 106.28$ xc

106.74 xc 106.284
106.3

2dp

1. $372.132 = 372.1$ ✓

L.O: To write a recount of the trip to Robin Wood

On the 7th of June, we prepared to go to Robin Wood - one of the most important dates in the year 6 calendar - in cars driven by parents and teacher volunteers. After driving to Todmorden, we met the rest of our classmates in a car park; I was excited about what was yet to come. Afterwards, we met our leaders and were assigned our groups. My leader was called Max, who looked after volcano group, he was bubbly, full of personality and kind. I was enjoying it already! We then walked about 1-2 miles to Osbrough Castle (our horse for the next 3 days) along a canal.

First, we were shown our dorms. Mine was called daphne, sleeping there was: me, Tess, Mia, Morgan, Isabelle, Rose, Freya and Lucy T. We made our beds; packed our kitbags and met outside our huts. Our first activity at Robin Wood was: the Dungeon of Doom... I enjoyed this as we had a time limit to complete puzzles that tested our co-operation skills and teamwork.

Next, we had the pithanna pool, we wore special Capthanna-wood - (or) t-shirts to protect us. We then entered the room; I was really scared. Luckily, we completed the tasks just before the pithannas were released.

Canoeing and 4 mast-building were among my favourite activities at Robin Wood. Even though the sea-cold water was coming down in torrents, my Sam had a great time. With canoeing, we played a ball game on the lake; Max's boat was the goal and we had to score points by throwing

Year 6 have written to recounts of their trips to Robin Wood.

Emily Gent

2017

L.O: To write a recount of the trip to Robin Wood

Smiles and laughter filled the room on Wednesday the 7th of June as we - year 6 - were soon about to embark on a Journey to Robin Wood.

Lots of the parents of the year 6 pupils, kindly offered to drive some of the children to Robin Wood car park, my mum was one of them, she drove me there along side Lucy Thomas. Once everyone had arrived at the car park we were split into three teams: Lava, Volcano and Dome. Rod was the instructor/ leader of my team - Lava. For certain, he was fabulous at leading our team; he was always always up for a laugh and pushing/ encouraging you to achieve everything to the best of your ability. As well as this, he would never gonna get to do something we didn't want to do, but he would still try to make sure of that we pushed ourselves to get higher or to do something a bit better. Whilst we walked from the car park to the car-park-by-the-castle/ the Robin Wood site, our adrenaline was continuously pumping through my whole entire body. When we arrived at the Robin Wood site, we discovered that we would start a dormitory with. Thankfully, everyone in my dormitory was more very coincidental - kind and caring.

The very first activity that we did - in lava - was The Dungeon of Doom.

The Dungeon of Doom was nearly built due to a never electrical fault that occurred last summer in July. Inside the Dungeon of Doom there was a variety of different tasks, the aim was to find a code which was the code to open the door. Just before we came gone to go on with the Dungeon our team, which was made up of: Alice, Sam, Nathan, Zack, Mia, Rose, Isabelle and Lucy T. nominated a team leader for this activity: Lucy.

Especially Rod handed Lucy a map of the Dungeon; the first task was to walk across the alternate floor. On the map, it showed us which floor that we could step on, which wouldn't set and alarm off and which floor that would. Eventually, when we'd completed the alarm floor, we entered the computer room where we got ourselves into groups of either 3-4. Five computers were in the room, in our group we arranged up to

10: 6 with a amount of the trip to Retiroveed

Retiroveed: one of the most exciting experiences of my entire life. I had a whole of a line for though my very jilted and was unsure whether to try some of the activities I attempted. Because of this, I enjoyed the experience even more than I originally thought.

As we were preparing for the walk, which was approximately two miles long to get to Retiroveed, our group was assigned; I was in Red's group, Lisa. Lisa consisted of: Sam, Alga, Melton, Dick, Tony, Mia, Brian, Freya and me. Red was extremely encouraging and kind-hearted - he always was a teacher. As well as Lisa, there were two other groups: Yellow and Blue. A funny, support man called Mia was Yellow's leader; Brian's leader was caring and respectful - his name was Emily. At this point, everything was excited.

After what seemed like forever, we reached the activity centre (the walk was between thirty or forty minutes long). As soon as we arrived, Mia told us which dormitories we were going to be in. I was extremely excited when I found out that I was in the same dormitory as my friends: Freya, Mia, Tony, Sam, Morgan and Emily! Better yet, our room was called Flapjacks; that's one of my favourite words.

The food at Retiroveed was delicious. Although it received much more from the rest of my class mates (which I was extremely surprised about) I thought it was really enjoyable. I enjoyed all of my Retiroveed meals. From the soups (spaghetti hoops) or bread to the chicken pasta. I thought that the food was extremely tasty. Other meals I enjoyed include: a chicken-filled wrap, vegetable pizza and chips, bacon and sausage with potato wedges and a ham and cheese sandwich.

During my time at Retiroveed, Red taught the class an easy game: Masha. Lisa and I loved this game and became Masha masters! To play Masha, you must try and make your competitor lose their balance; Lisa just gave us her real verdict! Because we loved it so much, we played this game several times each day.

Although I enjoyed everything, here are some of my favourite activities: canoeing, night - live
