Year 1 have
thought of some
great goals for
the new year.

Year 2 -

Jordan did some brilliant work to create arrays for multiplication

Year 2 -
Oliver M
wrote a
brilliant
detailed
recount of
our trip to
see The
Gruffalo

LO I include different types of sentences

On Friday the 5th January 2018 Reception, Year 1 and Year 2 were going to the Library. When we all arrived we were all talking about what we about was going to happen at the Gruffalo. When Mrs Kinnella told us to go to side and to keep our coats on after we got out side the coats were already there. Then, Mrs Shepherd told us to sit down. I sat partners with Oliver. I think it was going to be the best show ever! When we got there, there was a lot of people. My favourite character was the snake because he looked funny and silly. The journey back to school was very quick. When we got to school we had a buffet and had sandwiches and chips.

Year 3 - Olivia F and Lauren wrote a note to Jack explaining why they could not go through the tunnel

Dear Jack,

I'm very sorry I can't come with you down the tunnel it's a King kind of your fault for creeping in to my room at night and making me a friend of the dark. Right now I am shuddering in my shoes hoping your all right. I know lots of boys are ~~doing~~ ~~doing~~ ~~doing~~ like you. A LOT LIKE YOU!!! Right now my heart is beating so fast I ~~can't~~ ~~can't~~ ~~can't~~ dirty breath. I know what your thinking, you don't like me and I don't don't like you but I still do care for you quite a lot. I hope you care me. Anyway, I'm not coming in the tunnel because I think there are gobblings in there. Do you care for me? Love Rose xxx

Dear Jack,

I'm sorry I couldn't go down the tunnel I was worried that goblins or witches are down there. I just noticed that it is pitched black and it would really help if you stopped scaring me at night. Also I couldn't come down because I don't want to get my coat or dress dirty. If you didn't know they are new. I'm crying because I want you back. I know we are not the best together but I think we should get on a bit better than we do normally. Before I say any more I'm going to get help. Wait here and I'll come back later. Just remember be back in time for lunch.

Love Rose xxx

Year 3 - Isabelle B wrote an amazing piece comparing the characters of Rose and Jack.

Jack and Rose were brother and sister, although they were not at all alike. Jack was ten and Rose was eight and the two argued all the time, they never stopped, they couldn't, they wouldn't! Rose had a wonderful imagination while Jack's imagination was completely blank! Every morning, Jack would leap out of bed, excitedly, put on his clothes with the colour blue and white stars on it, and rush outside to play with his old friends but Rose wouldn't move an inch from the dusty windowsill, reading or gazing out of the small, glass window. *fab!*

Years passed, and Jack would get older and scarier because like a ghost, Jack would scare Rose every night for he knew she was afraid of the dark. Every night, Rose would closely curl up under the pink covers and put on a terrified face with one of her books lying at the end of the bed open in the middle of a page. Jack liked playing outside because he didn't mind any weather. ~~Had~~ He didn't like his young sister because he thought Rose was really annoying. Rose liked reading because she just thought she could jump out of the normal world and into a new one. She didn't like being outside because she thought it was freezing out there!

The big brother was brave but the little sister was scared of everything, she was probably not scared of a pencil though. They always felt angry ^{with} each other, wanting to argue all the time. ** Wow! fabulous comparisons*

Δ Excellent work Max!

Year 6 -
Madeline wrote
an excellent
piece of work
about a day at
the fair for
the apprentice
children of a
mill in
Victorian
England

The apprentice children found themselves at Buxford fair on a scorching, sunny day celebrating Miss Sarah's birthday. Buxford fair had a vast choice. Not knowing where to go first, the children stood planted to the spot, stunned and gaping; they had known no different.

The atmosphere was pumped with life. As the children strolled around, their little hearts were no longer in the glum darkness of the mill - they were here, in the centre of the fair.

It was as if the music was moving everything - it was as if pounding in their ears like a rapid stampede. As they lingered around each stall for about half an hour, their eyes got drawn to the glamorous ribbons, their noses to the magnificent smell of sticky fags.

As they skipped along, they came across an elegant gypsy lady, who had locks of brunette hair intertwined with scarves, she seemed to be murmuring in a dreamy voice, "I can tell your future."

The apprentices had to have a go! A child named Charles scrawny looking child name Charles, held out his knawed hand to pass the lady the money. Lots of emotions passed over her face as she searched his eyes carefully.
